

Formulating better medicines for children

7th conference of the European Paediatric Formulation Initiative (EuPFI)

A conference organised by the International Association for Pharmaceutical Technology
in partnership with the European Paediatric Formulation Initiative

16 to 17 September 2015
Antwerp, Belgium
Course No. 6606

Preconference Workshops

How to construct/evaluate Paediatric Investigation Plans (PIP)s
Nasir Hussain, MHRA, London, UK

Challenges of administration of medicines to neonates
Sara Arenas-Lopez, Evelina London Children's Hospital St Thomas' Hospital, London, UK

Soap box sessions – Poster session – Exhibition

International Association for Pharmaceutical Technology

Formulating better medicines for children

Dear Colleagues,

It is a great pleasure for European Paediatric Formulation Initiative to invite you to the 7th annual conference on "Formulating Better Medicines for Children", which will be held in Antwerp, Belgium, September 16th to 17th 2015 in partnership with APV (International Association of Pharmaceutical Technology).

The steady growth in importance of paediatric drug development has made it our mission to share expertise and interactive discussion between industry, academia, clinical and regulatory professionals to promote and facilitate preparation of better & safer medicines for children.

To achieve this goal, our 2015 programme is highly participant driven. This years preconference workshops will provide hands-on session on 'How to construct/evaluate Paediatric Investigation Plans (PIPs)' and an interactive session on 'Challenges of administration of medicines to neonates'.

The plenary session will focus on key efforts to expedite the crucial development of paediatric formulations in a global context. The talks include 'Refocusing research and development of paediatric HIV treatments on the needs of children in resource-poor settings' and 'Opportunities and challenges in paediatric product development outside of the EU/US'.

Paediatric research still encounters everyday a constant challenge of formulation, biopharmaceutical and other barriers. Focus sessions & Case studies are devised around these challenges, which in turn match the EuPFI workstreams on Excipients, Age appropriate formulations, Taste masking & Testing, Administration devices and Biopharmaceutics.

We continue to host a vibrant poster session with many selected for oral presentation. Also an 'Innovation Show Case' will give an opportunity for companies to present relevant technologies for children medicines.

This conference offers a unique opportunity for paediatric formulation specialists or interested parties, to exchange and present recent accomplishments as well as discuss remaining challenges for the future towards better medicines for children.

Don't miss this unique opportunity! We are looking forward to welcoming you in Antwerp with its beautiful historical city centre.

Catherine Tuleu,
UCL School of Pharmacy, London, United Kingdom

Jörg Breitreutz,
Heinrich Heine University, Düsseldorf, Germany

The European Paediatric Formulation initiative (EuPFI) is a consortium of members working in a pre-competitive way on paediatric drug formulations. It was founded in 2007 with the aim of raising awareness of paediatric formulation challenges. Members are from academia, hospitals and the pharmaceutical industry (innovators, generics, CROs, specials and excipient manufacturers), with EMA as a continuous observer.

The main objective of the EuPFI is to resolve scientific, technological and regulatory issues associated with paediatric formulation development by writing reflection papers, organising conferences, developing knowledge repositories and promoting dialogue through its website.

Currently, there are five EuPFI workstreams, covering pharmaceutical excipients, age appropriateness of formulations, taste masking and taste assessment methods, biopharmaceutics, and administration devices.

Mainz, July 2015

Wednesday, 16 September 2015
09:00 to 18:00

Workshops (additional registration)

Workshop 1: How to construct/evaluate Paediatric Investigation Plan (PIPs)
Nasir Hussain
MHRA, London, United Kingdom

Workshop 2: Challenges of administration of medicines to neonates
Sara Arenas-Lopez
Evelina London Children's Hospital St Thomas' Hospital, London, United Kingdom

Both workshops running twice

Lunch (for WS participants), exhibition and poster presentations

Programme

Set-up and poster mounting

Welcome and introduction
Catherine Tuleu, Chair of EuPFI
UCL School of Pharmacy, London, United Kingdom
Jörg Breitzkreutz
Heinrich-Heine-University Düsseldorf, Düsseldorf, Germany

Refocusing R&D of paediatric HIV formulations on the needs of children in resource poor setting
Marc Lallemand
Drugs for Neglected Diseases initiative, Geneva, Switzerland

Opportunities and challenges in paediatric product development outside of the EU/US
Daniel Schaufelberger
Janssen R&D LLC /J&J Pediatric Center of Excellence, Raritan, NJ, United States

Soap box session 1

Evaluation of the need for and criteria within a paediatric biopharmaceutics classification system: results of a survey
Hannah Batchelor, University of Birmingham, United Kingdom

Assessing the bitter taste of medicines: a comparison between rat taste panels (via the brief-access taste aversion (bata) model) and human taste panels
Jessica Soto, UCL School of Pharmacy, United Kingdom

Multiple-unit orodispersible mini-tablets
Anna Kira Adam, Heinrich-Heine-University, Germany

Development of matrix type and coated prolonged release minitables with carbamazepine
Czajkowska Magdalena, Medical University of Gdansk, Poland

Tribology can be used to assess texture perception of oral medicines
Hannah Batchelor, University of Birmingham, United Kingdom

Coffee break, exhibition and poster presentations

Focus session: Age appropriateness of formulations
Chair: Terry Ernest

PIP submissions and clinical trial challenges for IV preparations: a case study with clonidine (the FP7 cloSed project)
Sara Hanning
UCL School of Pharmacy, London, United Kingdom

Mixing medicines with food: food characteristics and potential food effects in paediatric patients
Alecia Barry
AstraZeneca, United Kingdom

Focus session: Taste masking & taste testing
Chair: Roy Turner

Taste perception in children
Judith van der Horst and Gertrude Zeinstra
Wageningen University and Research Centre, Wageningen, Netherlands

Pediatric patient-reported outcome instruments for research to support medical product labeling: Report of the ISPOR PRO Good Research Practices for the assessment of children and adolescents task force
John Chaplin
University of Gothenburg, Gothenburg, Sweden

Focus session: Administration devices
Chair: Jenny Walsh

Title to be confirmed
Thomas Gallem
PARI Pharma GmbH, Starnberg, Germany

Round table discussions with all speakers

Social programme with city tour and networking dinner

Main
Sponsor

Janssen
PHARMACEUTICAL COMPANIES
OF Johnson & Johnson

Thursday, 17 September 2015
09:00 to 16:00

Introduction Day 2

Catherine Tuleu, Chair of EuPFI
UCL School of Pharmacy, London, United Kingdom
Jörg Breitzkreutz
Heinrich-Heine-University Düsseldorf, Düsseldorf,
Germany

Influence of excipient on drug absorption in the gut (from
transit to permeability)

Abdul Basit
UCL School of Pharmacy, London, United Kingdom

Focus session: Excipients

Chair: David Storey

The European Study for Neonatal Excipient Exposure
(ESNEE) research initiative update

Mark Turner
University of Liverpool, Liverpool, United Kingdom

Excipients in paediatrics - Paving path through PIPs
discussion

Smita Salunke
UCL School of Pharmacy, London, United Kingdom

Innovation show cases

Improved outcomes with patient-centric pharmaceutical
design

Vincenza Pironti, Adare Pharmaceuticals

Developing an age appropriate pediatric formulation and
overcoming the challenges of dose uniformity

Skylar Wolfe, Bristol-Myers Squibb

Evaluation of emerging and existing taste masking tech-
nologies for paediatric drug development

Eunice Afriyie, University of Birmingham

Coffee break, exhibition and poster presentations

Case studies

- UNICEF (tbd)
- Novartis

Soap box session 2

Evaluating new biorelevant media for simulating post-
prandial gastric conditions in infants

Elisabeth Kersten, University of Greifswald, Germany

Pharmacy and formulation support for paediatric clinical
trials in England

Hannah Batchelor, University of Birmingham, United
Kingdom

Development of an extemporaneous 'hydroxyurea in sim-
ple syrup' for paediatric use

Stuart Charlton, Bristol-Myers Squibb, United Kingdom

A pan-European paediatric formulary
Dirk Leutner, EDQM / Council of Europe, France

Mucoadhesive oromucosal films of desmopressin acetate
for paediatric use

Sandra Lindert, Heinrich-Heine-University, Germany

Lunch, exhibition and poster presentations

Focus session: Biopharmaceutics

Chair: Hannah Batchelor

Strategies and examples to improve pediatric formulation
development through early implementation of PBPK
modeling and simulation

David Good
Bristol Myers Squibb

Clinical pharmacological considerations in the design of
studies in children

Paulien Ravenstijn
Janssen R&D LLC/J&J, Beerse, Belgium

Adaptive processes and clinical trials for developing
paediatric formulations

Peter Scholes
Quotient Clinical Ltd., Nottingham, United Kingdom

Round table discussion with all speakers

Closing remarks

Programme is subject to change

Introducing a new component to our annual conference –

" Career Network - Your Way to a New Job "

Mark your calendar now to meet with prospective
employees/employers in informal "table talk" settings to
discuss new job opportunities. It will provide the perfect
backdrop for professionals looking to discover potential
career opportunities in paediatric drug development,
make industry contacts and sharpen networking skills"

Dedicated Careers Networking session will take place on
Wednesday 16 September 2015 from 6 – 8 pm

Important Dates

Call for abstracts –
24 May 2015 submission deadline for oral presentations
24 June 2015 submission deadline for poster presentations
Notification of acceptance – **3 July 2015**
Conference early bird registration – **15 July 2015**

For more information go to www.eupfi.org

Topics for oral and poster presentations

1. Developing paediatric drug formulations
2. Excipients
3. Taste masking and taste testing
4. Administration devices
5. Modification of dosage forms required for children
6. Age appropriateness of formulation/compliance-adherence issues
7. Formulating paediatric medicines for developing countries
8. Lessons learned from PIP submissions
9. Biopharmaceutics

Exhibition and Sponsoring

We are glad to tailor a sponsor package (starting from 1000 EUR) according to your wishes.

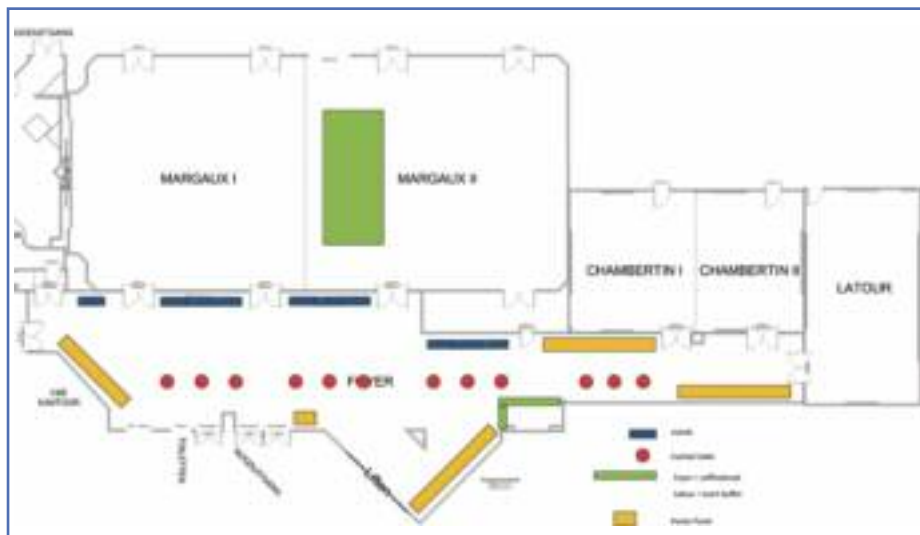

For general information, please go to www.apv-mainz.de/en/seminare/sponsoring-exhibition/

As an exhibitor you will be also invited to attend the sessions and network at the networking dinner in the evening. At the conference center the poster presentations will again be integrated in the exhibition, ensuring that participants are around the exhibition stands as much as possible. Price for a tabletop space with table, chairs and power supply is 990 EUR plus one mandatory full conference registration (register before July 15, to take advantage of the early bird fee!).

Please contact Antonia Herbert
