DMF

As manufacturer of the pharm-a-spheres™ neutral pellets we submitted a type IV drug master file (DMF) to the FDA in the United States. It has been assigned the following number:

17994.

Through annual updates it presents always the current situation.

If the FDA needs access to this DMF in the course of one of your applications we can issue a letter of authorization for you to reference to it. In this case please send us the necessary details as address and name of contact person.
