237 | 23 – 25 January, 2018, Binzen, Germany

---

### FLUIDIZED BED AS MULTI PURPOSE PROCESS

An universal technology for a variety of oral solid dosage forms - pharmaceutical applications, QbD, PAT, scale-up and new trends. Followed by hands-on demonstrations.

238 | 27 February – 01 March, 2018, Binzen, Germany

---

### COMPETENT CONTAINMENT

Finding the most effective solution for processing high potent OSD in R&D and production and using them efficiently.

239 | 13 – 15 March, 2018, Binzen, Germany

---

### HANDS ON CONTINUOUS OSD PHARMA PROCESSING

A forward looking approach for the production of oral solid dosage forms. 16 hours hands-on seminar on continuous OSD pharma processing with continuous wet granulation as well as direct compression.

240 | 17 – 19 April, 2018, Binzen, Germany

---

### GRANULATION & TABLETING PROCESS

Innovativ process and tools to achieve the perfect OSD product.

**NEW**

241 | 15 – 17 May, 2018, Weimar, Germany

---

### THERMAL PARTICLE SYNTHESIS AND TREATMENT

Particle design in nano and submicron range from theory to practice.

242 | 18 – 20 June, 2018, Binzen, Germany / Pratteln, Switzerland

---

### HANDS-ON TABLET COATING

From theoretical background to practical application.

**NEW**

243 | 03 – 05 July, 2018, Binzen, Germany

---

### GET READY FOR AUDIT AND INSPECTION

Preventative maintenance, procedures, documentation, illustrated on actual examples and demonstrations.

244 | 18 – 20 September, 2018, Binzen, Germany / Pratteln, Switzerland

---

### HANDS-ON TABLETTE COATING

Praxisorientierte Schulung anhand von unterschiedlichen Coatingversuchen, ergänzt durch Theorie über Verfahren, Ausrüstungen und Coatingprodukte.

245 | 16 – 18 October, 2018, Binzen, Germany

---

### PELLETS AND MICROPELLETS FOR ORAL MULTIPARTICULATE DOSAGE FORMS

From theoretical background to practical application followed by hands-on demonstration.

246 | 13 – 15 November, 2018, Binzen, Germany

---

### SCALE-UP AND PROCESS OPTIMIZATION IN MANUFACTURING

Relevant factors influencing batch and continuous processing to improve your productivity.
